

LOUIS ET AL.
"Power Amplifier Control Based On
On Load Impedance And Methods"
Atty. Docket No. CS22853RL

Appl. No. 10/691,024
Confirm No. 5009
Examiner H. Choc
Art Unit 2817

Allowability of Claims Over Chen

Rejection Summary

Claims 1, 2, 4, 5, 9, 11, 12, 16-18, 21 and 22 stand rejected under 35 USC 102(e) as being anticipated by U.S. Patent No. 5,781,850 (Chen). Office Action, 1 February 2005.

Discussion of 37 CFR 1.131 Declaration

The Applicants have submitted herewith a Declaration under 37 CFR 1.131 swearing behind the Chen reference. The rejections under 35 U.S.C. 102(e) and 35 U.S. C. 103(a) based on Chen are therefore overcome. Kindly withdraw the rejections based upon Chen.

The undersigned attorney of record submits that the disclosure (ID No. CS22853RL) was assigned to my personal patent preparation and prosecution docket and that the provisional patent application was expeditiously prepared and filed during the critical period.

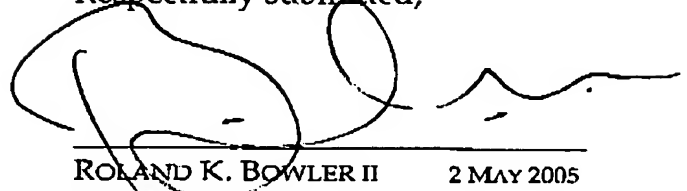

Prayer For Relief

In view of the amendments and the discussion above, the Claims of the present application are in condition for allowance. Kindly withdraw any rejections and objections and allow this application to issue as a United States Patent without further delay.
